-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 12 September 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claims 1-10 were cancelled in the most recent amendment.

Claims 11-20 are pending in the application and were examined on their merits.

The previous rejections are hereby removed due to the cancellation of the previous claims.

Claim Objections

Claim 12 is objected to because of the following informalities:

Claim 12, part (a) recites 'single entities or mixtures.' (which contains a period at the end of 'mixtures'). This appears to be a typographical error since this part of the claim is clearly not the end of the claim. Removal of the period will overcome this objection.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 12-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 12-20 all refer to a cancelled claim; claim 1. This causes ambiguity because claim 1 is cancelled, and therefore the metes and bounds of claims 12-20 cannot be clearly delineated. It is thought that Applicants intend for claims 12-20 to depend upon independent claim 11. Amending the dependencies of claims 12-20 to be dependant upon claim 11 and not claim 1 will overcome this rejection.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 11-20 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Specifically, claim 12 recites 'about 50 mg to about 500 mg', claim 13 recites 'about 50 micrograms to about 200 micrograms', claim 14 recites '50 mg to about 400 mg', claim 15 recites 'from about 10 mg to about 400 mg', claim 16 recites 'from about 0.001 micrograms to about 100 micrograms', claim 17 recites 'about 10mg to about 400 mg', claim 18 recites 'about 50mg to about 2000mg', claim 19 recites 'about 0.001 micrograms to about 400 micrograms' and claim 20 recites 'from about 10 mg to about 1600 mg'. None of these ranges can be found in the original specification as filed. Thus, these ranges are considered to be New Matter. Applicant is asked to point out where in the specification, as filed, these ranges can be found or to delete/amend the claims in order to overcome this rejection.

Claims are free of the art.

No Claims are allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 1655

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
